

CLSA-48

SPD - for data, signalling and telecommunications lines / ICT / for LSA-PLUS strips (CLSA)

Surge protection for 2-core signal line
for LSA-PLUS separating strips

- combination of coarse and fine protection of data and I&C lines
- installation close to protected equipment
- for protection of communication interfaces and measuring lines of I&C, electronic security and fire detection systems, etc. against impact of surge voltage
- coarse and fine surge protection in differential mode (core – core) and coarse protection in common mode (core – PE)
