

DMS-048T

SPD - for data, signalling and telecommunications lines / I&C / Specials - limiting current

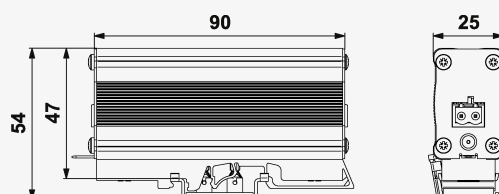

Surge protection with voltage and current limiting

coupling impedance (resistance)

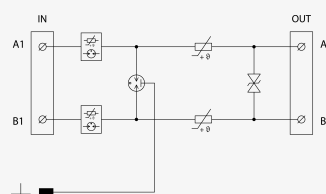

- special two-stage surge protection of 2-core signalling line with current limiting
- installation close to protected equipment
- for protection of communication interfaces, mainly the measuring loops, of I<(>&<)>C, electronic security and fire detection systems, etc. against surge voltage where are long parallel lines with power network
- coarse and fine surge protection in differential mode (core – core) and coarse surge protection in common mode (core – PE)
