**SPD - for low voltage / SPD type 1 / 40 mm busbar system - T1+T2 (12,5 kA)**

Combination of lightning current and surge arrester for systems TN-C

pluggable module, visual fault signalling, module locking, terminals for supply, onto 40 mm busbar system

- high performance lightning current arrester, installation at the boundary of zones LPZ 0 and LPZ 1 or higher, mainly to main distribution boards upstream power meters
- for protection against impact of direct or indirect lightning strikes in wide range of applications – houses, office or industrial buildings, resp. to sub-distribution boards in large buildings
- protected supply of power meters assembly
